

Frog Puppet Craft

Materials needed :- Card (eg cereal box)
 1 sheet A4 green paper (white will do). 2p.
 Small piece of white paper. Black pen or pencil
 Green coloured pencil. Scissors and gluestick.

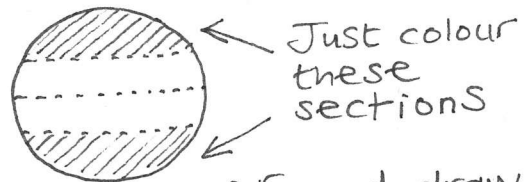

① Draw around a saucer or small bowl to make a circle shape from the card. Cut out.

② Fold it in half → then fold over again → about 2.5cm ← here

③ Open up the circle shape and fold back both the semi-circles. This will be the frogs head, and the section in the middle can be held at the back and make the mouth move later!

④ Colour in the semi-circles with a green coloured pencil (if using a cereal box - this would be the inside)

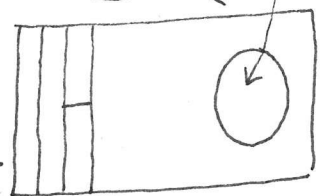

⑤ Fold a small piece of white paper over and draw around a 2p or 10p piece to get a circle. Then cut out and you have 2 small white circles. Stick these on top of the 'frogs head'. Then draw in 2 small black circles on them to make frogs eyes

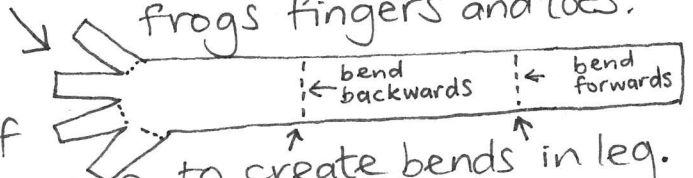

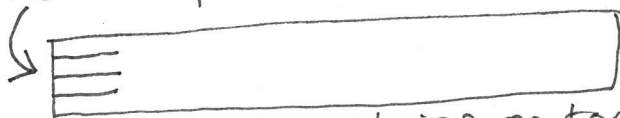

⑥ Take your piece of green paper and draw an oval shape, which is smaller than the saucer you used for the circle shape. Cut it out and stick just under frogs chin, with a little glue needed just at the top.

⑦ Cut 3 strips, about 2.5cm wide from the width of the A4 green paper, and cut one of them in half. These will be frogs arms and legs.

⑧ Make 2 or 3 cuts in one end of each piece. Then splay out and crease to make frogs fingers and toes.

⑨ Put long leg strips on top of each other and fold and crease to create bends in leg.

⑩ Stick on arms and legs on back of oval body. Hold frog behind head and make him jump around and talk!
